

THE DINOSAUR STOMP

Diane Kordas ©2001

I know about an animal
That's now extinct.
Some were big some were small
What animal do you think?
Do the Dinosaur stomp with your feet
stomp stomp stomp stomp stomp stomp
Do the Dinosaur stomp it's a brand new beat
stomp stomp stomp stomp stomp stomp.
Big T Rex was a carnivore
That means he ate meat
and other dinosaurs!

Chorus

Triceratops was an herbivore
that means he ate plants
and nothing more!

Chorus

Petienosaurus was an omnivore
He ate meat and plants
Always wanting more!

Chorus

From Dinosaur bones deep in the ground
Dinosaur bones
now heat our homes.

Chorus

Can you think of other dinosaurs that were carnivores, herbivores, omnivores? Use puppets with this song and act it out. Create dioramas with the types of dinosaurs!
