

MY DINOSAUR

Diane Kordas © 2003

If I had a dinosaur
Of my very own
I would feed him and take good care of him
And teach him tricks you know
He'd be the smartest dinosaur
And I really think
They needed taking care of
Or they wouldn't be extinct.
My dinosaur (echo)
My dinosaur (echo)
He counts to three (1 – 2 – 3)
He claps his hands (clap clap clap)
Stomps his feet (stomp stomp stomp)
And he'd have a mighty roar. (roar)
I would teach him how to read
And write a little too.
I'd help him learn his ABC's
He'd learn to tie his shoes.
I'd help him keep his room clean
And he'd take good care
So we wouldn't be digging up his bones
He's left scattered everywhere.

Chorus

Ever wonder how things would be if dinosaurs weren't extinct? Let's take care of all animal and plant species so they don't have the same fate as the dinosaurs.
